

Be COVID-Safe this Summer

Travel

- Not travelling is the best approach and if possible should only be for essential purposes.
- We recognize people within and outside the province may travel, especially if they have a recreational property in Saskatchewan.

This is not prohibited under Public Health Orders. Do not call police if you see out-of-province licence plates.

- If you are leaving Saskatchewan, know the Public Health Orders for your destination in advance. Consider getting tested prior to travelling and upon your return home.

Reduce Your Risk

- Stick close to your cabin, cottage or campsite – minimize travel when you can.
- Co-ordinate errands so you are making fewer stops.
- Keep to your household bubble.
- Visit outdoors rather than indoors – it's safer.
- Closely follow Public Health Orders, including limits for indoor and outdoor gatherings.
- Maintain physical distancing, wear a mask and practice good hand hygiene to minimize risk.

Self-isolate if you are experiencing symptoms of COVID-19, and get tested.
Get vaccinated when you are eligible and #StickItToCOVID
